

kids note

How to register for parents

Kids Note is a comprehensive contact app for nurseries and parents using computers, smartphones and tablets.

Overview of Kids Note Service

Notifications, schedules, and emergency notifications from the nursery can be checked at any time from a computer, smartphone, or tablet.

In using Kids Note

This service has the following features from the viewpoint of privacy protection.

- Users can communicate with each other, but only approved by the nursery.
- Parents cannot contact each other individually.
- The user is responsible for the operation of the content to be posted and the photos and videos to be uploaded.

Precautions when creating an ID

Please create one ID at home.

■ Share one ID and password with your family and use
You can view the same content from your smartphone, tablet or PC.

■ Even if you have siblings, you only have one ID.
You can add children after logging in to Kids Note.

About Kids Note function

Report

You can send and receive reports between parents and nursery you registered in.

- Photos (up to 50) and videos can be attached.
- You can enter the sentences, and select only necessary items such as children's meals, defecation, body temperature.

*You can change the content by clicking "Edit" or "Delete" even after sending the article.

Notice

You can view the announcements from the nursery.

- Letters from nursery, questionnaires, and in emergencies will be notified.

Album

You can view photos/videos of daily activities at the nursery.

Calendar

You can check the events of the nursery.

- When you tap "Save", the activities and events are added to your smartphone calendar.

<Your own calendar> *The display method differs depending on the model.

Today's meal

You can browse the menu and photos of the lunch/snacks children ate at the nursery.

Medication request form

You can create a request form for the medicine you want to ask for on the day/next day and send it to the nursery. You can also check the post-medication report.

< Report image for app >

The functions that you can use depend on the nursery/facility you registered with. 

Notification of pick-up time

You can send the pick-up time for the day/next day to the nursery.

*Please make a new one as it is not possible to change the contents after the nursery has confirmed it.

Attendance book

You can check your child's arrival and departure times.

Body temperature record

You can check the record of your child's temperature.

Chatting board

You can write freely like a bulletin board.

Memories Box

"Report" and "Album" are also accumulated in the "Memories box" at the same time. Even after changing classes or leaving the nursery, you can view past "Report" and "Albums" from "Memories Box".

*Select "Memories Box" from the children's name on the upper of the main screen.
